Directions:

We are located at the corner of 10th and Peachtree in Midtown.

This Month's topic: FETCH Demonstration!

Our guest speaker will be:

Saurabh Gogate (CEO) of Aqua Blue

Saurabh Gogate is the founder and CEO of Aqua Blue Solutions, a software development company. Saurabh is a registered Civil engineer and founded Aqua Blue Solutions to create applications for the Civil and Environmental industries.

FETCH is a comprehensive solution developed by Aqua Blue, which can be customized for any type of field data collection. It has been successfully used by companies to automate their data collection process.

OVERVIEW

We will be demonstrating FETCH - an end-to-end Solution for collecting, storing and analyzing field data.

FETCH is a completely customizable application with three key components:

- Hardware (tablet) & software for data collection
- Secured cloud data storage
- Web portal for viewing and downloading data

Who can benefit from Fetch?

Anyone who uses a clipboard and a form to note information in the field.

They have successfully implemented FETCH for:

1. Environmental Engineering
2. Geotechnical evaluations
3. Asset Management
4. Construction oversight
5. Inspections
6. Daily Reports
7. Field Reports
8. Engineering system O&M
