

2016-2017 CMAA-SAC LUNCH & LEARN SERIES

Educational Advancement During Your Lunch Hour!

Please join CMAA-SAC for our Lunch & Learn Series. The presentations will be comparable to AIA and will help you fulfill CEUs for other organization. Attendance Certificates will be made available to all attendees.

3D LASER SCANNING: MAPPING AT THE SPEED OF LIGHT

presented by:

David Headrick

LandAir Surveying Company

David Headrick serves as Project Manager, General Counsel, and Vice President of LandAir Surveying Company's 3D Laser Scanning Division. He has more than twenty years of experience as a manager and attorney in the land surveying, architecture, engineering, and construction industries.

Contact him at (865) 599-0148, dheadrick@lasurveying.com, or his LinkedIn profile.

Presentation Summary

3D Laser Scanning is a tool that uses harmless light to map buildings and equipment with unprecedented accuracy. Large volume 3D laser scanners can map entire facilities into CAD, BIM, and VDC systems, giving powerful facilities management and design tools to owners, architects, engineers, contractors, and designers. David Headrick of LandAir Surveying Company, Inc. will show how this technology works, present several sample projects, and discuss how this tool can save time and money on projects.

sponsored by:

**Wednesday
February 8
12:00 - 1:00 PM**

Where:

999 Building Conference Center
5th Floor
999 Peachtree Street, NE
