

2016-2017 CMAA-SAC LUNCH & LEARN SERIES

Educational Advancement During Your Lunch Hour!

Please join CMAA-SAC for our Lunch & Learn Series. The presentations will be comparable to AIA and will help you fulfill CEUs for other organization. Attendance Certificates will be made available to all attendees.

ENERGY EFFICIENT RETROFIT CASE STUDIES

presented by:

**Chad Griffith, PE, CEM,
CCP, LEED AP**

Griffith Engineering, Inc.

Chad Griffith is the founder and President of Griffith Engineering, Inc. and serves as the firm's Managing Principal. He is a licensed Professional Engineer in 16 states and is a Certified Energy Manager and LEED Accredited Professional. He is also a member of ASHRAE, the NFPA, and the ASME.

Griffith Engineering, Inc. focuses on delivering top quality MEP/FP design and energy analysis services. The firm's team of professional engineers, certified energy managers, and certified cogeneration professionals has a history of developing innovative and cost effective engineering design solutions for its clients. The majority of the firm's work – about 85% - is in existing buildings located across the country and internationally.

Presentation Summary

This program will highlight energy efficient HVAC retrofits in existing buildings, focusing on multiple building and system types. Technologies implemented in these case studies include geothermal systems, outside air energy recovery, and central plant optimization.

Specific projects included in this presentation were implemented at the University of Central Missouri, the Forsyth County School System (Georgia), Fort Gordon, the Atlanta Speech School, and the Centers for Disease Control and Prevention.
