

2016-2017 CMAA-SAC LUNCH & LEARN SERIES

Educational Advancement During Your Lunch Hour!

Please join CMAA-SAC for our Lunch & Learn Series. The presentations will be comparable to AIA and will help you fulfill CEUs for other organization. Attendance Certificates will be made available to all attendees.

THE EVOLUTION OF GLASS AND HIGH PERFORMANCE COATINGS

Presentation Overview

This seminar covers glass from its basic materials through the manufacturing process. It discusses the various types of LowE technologies available and defines relevant energy terms. The seminar also uses a case study format to discuss current trends in glass usage and application.

Learning Objectives:

- Understand the history of architectural glass
- Discuss the basic materials that combine to create complex architectural glass
- Clarify the types of LowE and Solar Control Glazings available
- Define appropriate energy terms related to glass and glazing
- Review current glass and market trends
- Evaluate various glass types, use, and benefits through a case study format
- Discuss important design considerations and ideas related to the use of glass in architecture

presented by:

Alan Kinder, Architectural Sales Manager

Guardian Industries Corporation

Alan Kinder earned his Bachelor's Degree in Industrial Management from Clemson University and is currently the Architectural Design Manager for Guardian Industries. Guardian Industries Corp., is a privately held company that is one of the world's largest manufacturers of float and fabricated glass for the commercial, residential and automotive markets. As a diversified global manufacturing company, Guardian is also one of the world's top automotive suppliers, providing one-stop shopping for automotive exterior systems. With headquarters in Auburn Hills, Michigan, the Guardian group employs more than 18,000 people in more than 25 countries on five continents.
