

# 2023 DYLAN THOMAS MEMORIAL SCHOLARSHIP

Honoring the life of **Dylan Thomas** and promoting the scholarship fund for promising students in the AEC industry.

This scholarship will be awarded to a student at the CMAA-SAC Annual Project Achievement Awards Gala in summer (date TBD).

Please consider **donating online** today.

# #DylanStrong

Dylan Thomas was a 16-year old, Junior at Pike County High School. On September 28, 2018, he was hit and injured while playing in a local high school football game. He was taken to Grady Memorial Hospital where he underwent several surgeries, yet sadly passed away on September 30.

Dylan loved playing football, cheering on the University of Miami, fishing, hunting, and spending time with his family and friends. He shared his passion for football and encouraged younger students to never give up in following their dreams.

Darren Thomas, Dylan's father, is a well respected AEC Industry associate and Director of Physical Plant Operations at Clayton State University. Darren would bring Dylan to industry events and conferences to learn about the industry and most importantly, spend "father/son" time together. As a result, many industry associates knew Dylan through his father and met or crossed paths with him at industry functions over the years.

The CMAA-SAC Scholarship Foundation wanted to celebrate the life and preserve the memory of Dylan through establishing the Dylan Thomas Memorial Scholarship. In honoring Dylan, we honor the entire Thomas family and support their initiative to create a legacy for Dylan; recognizing individuals with exceptional character and an interest in the architecture, engineering and/or construction industry.

This will be the top scholarship awarded at the CMAA-SAC Project Achievement Awards & Gala on June 15, 2023 at the Foundry at Puritan Mill in Atlanta. Please consider making a tax-deductible donation. When paying by check, please note: **#DYLANSTRONG** in the MEMO line.
